

Washington Fire Commissioners Association 2017 Health Care Workshops

*For Commissioners and Administrative Personnel of Fire Districts,
Fire Departments, Regional Fire Authorities & Public Authorities*

OPEN INVITATION

We cordially invite you to attend one of the three upcoming annual Washington Fire Commissioners Association (WFCA) Health Care Program Workshops. The workshops will be held in Spokane on September 7, Olympia on September 12 and Lynnwood on September 14. Workshops begin with a luncheon and are free of charge to those in attendance.

This **invitation is open** to both current Health Care Program member organizations and fire service organizations not enrolled in the Program. Fire service organizations that are not members of the WFCA Health Care Program are encouraged to attend to learn about our benefit offerings and costs. We offer comprehensive benefits as well as affordable, stable premiums and we encourage you to check to be sure your organization is not paying higher premiums for fewer benefits.

The workshops provide an opportunity to meet and interact with WFCA, third-party administrator and insurance consulting staff, which are the key people who support the WFCA Health Care Program. This is a very effective team that facilitates the purchase and provision of comprehensive affordable health care specifically for the benefit of fire service professionals and their families. Bring your questions and comments.

The workshops will cover 2018 Plan Year information including health benefits, premium rates, changes in Health Care Reform and WFCA Health Care Program projects and activities. It is a valuable opportunity for us to hear your thoughts and ideas. Please come network with us so we can get to know you better. We are here to serve our membership.

To register for a workshop, please click [here](#) to complete the online registration form. If you prefer a hard copy registration, one is attached to complete and submit to the WFCA office.

If you have any questions or need additional information regarding the workshops or the Health Care Program, feel free to contact the WFCA office at 800.491.9322, 360.943.3880 or wfca@wfca.wa.gov.
